
Source survey data element
(question or response option)
Assign OMOP domain
(Observation, Measurement, Condition)
Standard concept with
exact or close match and
confidence ≥ 0.75?
No
Yes
Flag for working group review
Map to standard concept
(LOINC, SNOMED CT, UCUM, PPI)
Suitable standard
concept identified
on review?
No
Yes
Create AI-READI custom concept
(concept ID ≥ 2,000,000,000)
Retain standard concept
(related match, documented)
Apply mapping pattern(s)
Question–response pairing
(value_as_concept_id)
One-to-one mapping
Dual-domain mapping
(Observation + Condition)
Negative-response capture
Contextual qualifier, e.g., laterality
(qualifier_concept_id)
Submit to OHDSI
Vocabulary Working Group
revise
Document SSSOM metadata
(predicate, confidence, provenance)
Working group adjudication
(consensus review)
Final validated mapping
